SKILLS SUMMARY

Languages: C, C++, Java, Python, DSA

Frameworks: HTML, CSS, JavaScript, React (basic), Flask (basic), Crow Framework (C++)

Tools/Platforms: Leetcode, GeeksforGeeks, HackerRank, Hackerearth, Git, GitHub, TryHackme

Backend: Node.js (basic), MySQL, MongoDB, REST APIs

Soft Skills: Problem-solving, Team Collaboration, Adaptability, Continuous Learning

INTERNSHIPS

Machine Learning Intern | Skillcraft Technology | [Certificate](#)

Jan 2026 – Feb 2026

- Assisted in data preprocessing, exploratory data analysis (EDA), feature engineering, and model building across multiple machine learning projects.
- Implemented and evaluated regression, clustering, classification, and CNN-based models, including real-time hand gesture recognition, using appropriate performance metrics.
- Enhanced skills in Python and ML libraries, gaining hands-on experience with real-world datasets and end-to-end ML workflows.

Machine Learning Intern | Saiket Systems | [Certificate](#)

Sep 2025 – Oct 2025

- Assisted in data preprocessing, feature selection, model training, and evaluation for the Customer Churn Prediction project.
- Contributed to developing and optimizing predictive ML models through analytical discussions, applying algorithms, and evaluating performance using Accuracy, Precision, Recall, F1 Score, and ROC-AUC.
- Strengthened problem-solving, model interpretability, and adaptability to real-world AI challenges.

PROJECTS

Denoising Diffusion Probabilistic Model (DDPM) for Image Generation on MNIST | [GitHub](#)

Jun 2026

- Constructed a conditional DDPM with 1,000 diffusion timesteps, trained on 60k MNIST images using TensorFlow.
- Reduced reconstruction loss by ~10% and maintained a train-validation loss gap <0.001, indicating strong generalization.
- Achieved stable convergence with early stopping, reaching a best validation MSE of ~0.039.

Sorting Visualizer | [GitHub](#)

May 2026

- Engineered a backend computation engine to execute and visualize 12+ sorting and graph-based algorithms (Quick Sort, Merge Sort, Heap Sort, Dijkstra's, BFS, DFS, Prim's, Kruskal's) with step-by-step state outputs.
- Automated delivery of educational metadata, serving 30+ unique data points per request across all algorithms.
- Containerized the backend application using Docker and docker-compose, ensuring consistent development and deployment across local and production environments.

TRAINING

Data Structures & Algorithms using C++ | LPU | [Certificate](#)

Jun 2025 – Jul 2025

- Gained hands-on experience with Data Structures and Algorithms in C++, applying STL concepts to efficiently manage and manipulate data.
- Learned backend development in C++, including REST API handling, file persistence, JSON processing, and concurrency using mutexes.
- Improved understanding of full-stack integration, API design, problem-solving, and version control using Git and GitHub.

CERTIFICATIONS

- Oracle Data Platform Certified Foundations Associate | Oracle | [Certificate](#)
- Software Engineer Intern | HackerRank | [Certificate](#)
- Problem-solving (Intermediate) | HackerRank | [Certificate](#)

Apr 2026

Sep 2025

Sep 2025

ACHIEVEMENTS

- Solved 500+ questions on Leetcode and secured multiple problem-solving badges.
- Earned 5-star badges on HackerRank in Problem Solving, C++, Java, and Python.
- Built a project at the Build-a-Thon Hackathon | APNA College x LPU Board Infinity | [Certificate](#)

Jun 2026

May 2026

Apr 2024

EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science and Engineering

CGPA – 6.82

Punjab, India

Aug 2023 – Present

Rajkamal Saraswati Vidya Mandir

Intermediate – 81%

Dhanbad, Jharkhand

Mar 2021 – Mar 2023

De Nobili School C.M.R.I.

Matriculation – 90%

Dhanbad, Jharkhand

Mar 2020 – Mar 2021
